

Sectorplan workshop on EU health data governance & the proposed European Health Data Space

10 November 2021, at 14h, on Zoom

The workshop intends to map the contours of EU health data governance and, in particular examine the Commission's proposal for the EHDS and the policy options for and implications of health data access and sharing therein.

Workshop programme

14h	Introduction and welcome address
	Session 1: EHDS: Sharing health data for better health care, research, and policy
14h05	<i>European Commission's plans for the EU health data governance/ EHDS proposal</i> <ul style="list-style-type: none">- Hugo van Haastert, DG SANTE, Unit European Reference Networks and Digital Health, European Commission
14h30	<ul style="list-style-type: none">- Mahsa Shabani, Ghent University: <i>Regulatory framework around EHDS: focusing on data altruism, safeguards, and legal bases for further processing data</i>- Timo Minssen, CeBIL, University of Copenhagen: <i>Ethico-Legal Aspects of Governing AI for health within the EHDS</i>
15h15	Break
15h30	Session 2: EHDS: Creating an EU single market for digital health & innovation
	<ul style="list-style-type: none">- Speaker TBC- Santa Slokenberga, Uppsala University: <i>Balancing individual rights and health research in the EHDS: sharing data and national divergences</i>- Giulia Schneider, Sant'Anna School of Advanced Studies: <i>Situating the EHDS within the Digital Single Market: health data sharing as an innovation and EU internal market objective</i>
16h30	Discussion: Synergies, tensions, (potential) blind spots in the EHDS
16h45	Concluding remarks
