

Language and Preparatory Program at the Language Center

The Language and Preparatory program at the Tilburg University Language Center consists of three steps: NT2 Beginners, NT2 Intermediate and the pre-Bachelor's program. The pre-Bachelor's can also be taken at the Fontys University of Applied Sciences. After completing the Language and Preparatory program, you have your civic integration diploma and you can start a study program at a university of applied sciences or a university.

NT2: Beginners (from 0 to A2)

This course allows you to rapidly acquire a solid basis of everyday Dutch based on texts from the **Delft method** , that you will go through step-by-step. Grammar is also explained based on these texts. This allows you to develop a feel for the language instead of only knowledge of the grammar rules.

NT2: Intermediate (from A2 to B1)

During this intensive course, you continue to develop your general proficiency in Dutch. You expand your vocabulary (to approximately 4300 words) and your knowledge of grammar. In preparation of the lessons, you study one or two texts that cover all aspects of living in the Netherlands. In this way, you practice vocabulary, idiomatic expressions, and grammar.
