

Enrollment and Tuition Fee Regulations 2023-2024

These Regulations are a further elaboration of Chapter 7 of the HERA (Higher Education and Research Act, in Dutch: 'de Wet op het Hoger onderwijs en Wetenschappelijk onderzoek'), in which the most important rules for the enrollment of students and external students are defined. Appendix I of these Regulations forms an integral part of these Regulations.

Article 1 Terms and definitions

The following terms and definitions apply to these Regulations:

- a. *Termination*: formal termination of enrollment at Tilburg University, which involves the cancellation of all duties and rights relating to the program as per the termination date;
- b. *External student*: a student who may only sit the tests and exams of a program and the relevant units of study and who has no further entitlement to education, supervision (including thesis supervision) or facilities, with the exception of the use of the library (Article 7.36 of the HERA);
- c. *EEA*: agreement on the European Economic Area: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, and Sweden;
- d. *Joint education*: education as mentioned in Article 7.3c of the HERA: providing education programs, or specializations within a program together with one or more Dutch or foreign higher education institutes;
- e. *Initial education*: higher education as referred to in Article 7.3a of the HERA (associate degree programs, Bachelor's programs and Master's programs following Bachelor's programs);
- f. *Institutional tuition fee or institutional tuition fee rate*: the tuition fees for students as described in Article 7.46 of the HERA, the amount of which is determined by the Executive Board of Tilburg University. The amount of the institutional tuition fees is determined per program and/or per group of students as defined in Appendix 1 of these Regulations;
- g. *EER*: the Education and Examination Regulations per program or group of programs as described in Article 7.13 of the HERA;
- h. *Program*: a Bachelor's or Master's program as described in Article 7.3 of the HERA;
- i. *Student*: a person enrolled at Tilburg University and subject to the rights ensuing from enrollment defined in Article 7.34 of the HERA;
- j. *Academic year*: the year which runs from September 1 through August 31 of the following year;
- k. *Weighted fee for pre-Master's programs*: fee due to eliminate deficiencies in connection with failure to meet the admission requirements referred to in Section 7.30e of the HERA;
- l. *Fee for educational modules*: fee payable for a portion of a Bachelor's program aimed at preparing to teach a subject, as referred to in Article 7.12, paragraph 2, of the Secondary Education Act 2020;
- m. *Waiver*: a discount on the institutional tuition fee;
- n. *Statutory tuition fee or statutory tuition fee rate*: the tuition fees for students as defined in Article 7.45 of the HERA, the amount of which is determined by the Minister of Education;
- o. *Act, HERA*: the Higher Education and Research Act, in Dutch: 'de Wet op het Hoger onderwijs en Wetenschappelijk onderzoek (WHW)'.

Article 2 Scope of these Regulations

These Regulations apply to students (full-time, part-time, and dual) and external students who are enrolled in one of the initial degree programs of Tilburg University during the 2023-2024 academic year, as well as to students who are enrolled in (a) pre-Master's program(s) and/or (an) educational module(s) at Tilburg university in the academic year 2023-2024. These Regulations do not apply to contract education.

PART 1 ENROLLMENT

Article 3 General enrollment conditions

1. To be enrolled as a student, the following conditions must be met before the start of the academic year (September 1) or the starting date of the program, the pre-Master's program, or the educational module as defined in the EER:
 - a. the student must:
 - 1) meet requirements for admission of the program, the pre-Master's program, or the educational module concerned, the student meets the statutory previous education requirements and other admission requirements as described in the EER; and
 - 2) possess a personal 'Proof of Admission' issued by Tilburg University; and
 - 3) have accepted the assigned place within the prescribed period if the student enrolls for a *numerus fixus* program.
 - b. the student must have submitted an enrollment or re-enrollment request via Studielink before the start of the academic year or before the start of the program, the pre-Master's program, or the educational module as defined in the EER;
 - c. students not in possession of the Dutch nationality must submit a copy of the student's passport or identity card;
 - d. the student must prove that he/she meets Article 7.32 fifth paragraph of the HERA regarding his/her nationality and lawful stay;
 - e. the student must have submitted proof that the tuition fee due or other payment due has been or will be paid;
 - f. the student must have participated in a matching activity as referred to in Article 7.31b first paragraph of the HERA in accordance with the provisions of the Education and Examination Regulations (EER), to the extent that a matching activity is required by the EER governing the relevant program.
2.
 - a. A student may only enroll as an external student if the Board of the university deems this does not contravene with the nature or interests of the teaching program.
 - b. Enrollment as an external student is effective as of the first day of the month in which the request for enrollment was submitted via Studielink and after the applicable examination fee has been paid to the bank account of Tilburg University.

Article 4 Enrollment and enrollment dates

1. All persons who wish to use educational or examination facilities or facilities of another nature that form part of the initial education of an institution must be enrolled as a student or external student.
2. Enrollment as a student in a degree program, pre-Master's program or educational module opens as of September 1 or, if a starting date in February is defined in the EER, as of February 1.
3. If a student submits an enrollment request to enroll on a date after the official starting date of the program, the pre-Master's program, or the educational module, they must receive permission to enroll from the Executive Board. Any enrollment on a later date will be valid as of the first day of the month of enrollment. If the conditions described in Article 3 of these Regulations are met only after September 1, the permission of the Executive Board will be required to enroll the student and the enrollment will be effective as of the date defined in the Board's decision. A request for enrollment on a later date must be submitted in writing and with reasons to the Student Administration, with the proviso that enrollment requests as of June 1, July 1, or August 1 of the academic year will not be taken into consideration. The Executive Board shall in any case withhold permission to enroll if there are educational objections to starting the program, the pre-Master's program, or the educational module on a date after the official starting date. If the Executive Board withholds its permission, the student can only be enrolled as of the next official starting date of the program, as defined in the EER of the applicable program.
4. Requests to enroll with retroactive effect to the first of the month concerned are only granted in extraordinary cases and at the Executive Board's discretion. Retroactive enrollment as of October 1 can, in any case, not be granted. The request must be made in writing and with reasons to the Student Administration.

5. External students can enroll at any time, without prejudice to what is specified in Article 3 paragraph 2.

Article 5 Proof of enrollment

After the enrollment is completed, the student will receive a proof of enrollment for each program in which they are enrolled.

Article 6 Student status and enrollment adjustments

The student's status, as meant in Article 9 in conjunction with Article 10 and Article 11 of these Regulations, determines whether the student is enrolled for the statutory tuition fee, the institutional tuition fee or other form of payment applicable. The student's status at the start of his enrollment determines whether the student falls under the statutory fee or institutional fee at the start of the program. Status changes after this reference date can result in an adjustment of the enrollment and fee which will be effective as of the month following the status change. If a student has enrolled and has paid the statutory tuition fee, institutional tuition fee or other payment based on incomplete or incorrect information about the student's previous education or nationality, the enrollment status will be adjusted with retroactive effect as soon as the correct information is made available.

Article 7 Refusal and termination of enrollment by the institution

1. If the university has been authorized to automatically debit the payment of the student's tuition fee or weighted fee and is unable to collect an installment payment, a reminder letter requesting payment of the outstanding installment will be sent. If the student fails to make full payment of the installment before the deadline of this reminder expires, the Head of the Student Administration will terminate the student's enrollment as of the second month following the reminder.
2. The Executive Board can refuse to enroll a student if they have outstanding debts with Tilburg University. The enrollment will not be reinstated (with the same or any other program, pre-Master's program, or educational module) in that academic year until the complete overdue amount has been paid as a lump sum, and, if applicable, the tuition fee or other payment for the entire current academic year has been paid in full. The applicable student will not be able to pay the tuition fee or other payment in installments nor will he/she be able to use a direct debit authorization or payment agreement in his/her current year of studies.
3. An enrollment request for the 2023-2024 academic year that is received on or after June 1, 2024, will not be taken into consideration.
4. An enrollment can be terminated in the cases referred to in Article 7.42, paragraph 3 of the HERA. If the enrollment is terminated on one of these grounds, the enrollment will be terminated with effect from the following month.
5. Article 8, paragraph 3 applies mutatis mutandis.

Article 8 Termination of enrollment at the student's request

1. Unless enrollment is terminated by the institution on the basis of Article 7 of these Regulations or at the request of the student or external student, then all enrollments terminate automatically as of August 31.
2. After a student or external student has requested termination of his/her enrollment via Studielink, the enrollment with the program, the pre-Master's program, or the educational module will be terminated by the Executive Board effective as of the month following the month in which the Student Administration received the request.
3. The Student Administration will inform the student and the Education Executive Agency (DUO) that enrollment has been terminated. Non-EEA nationals in possession of a residence permit for the purposes of studying will be reported to the Immigration and Naturalization Service (IND) within one month of cancellation or termination of their enrollment.

PART 2 TUITION FEES (RATES)

Article 9 Statutory tuition fee

1. A student requesting to be enrolled as a full-time, part-time, or dual student shall pay the statutory tuition fee of € 2.314 if the student:
 - a. enrolls for a Bachelor's program and has not been awarded a Dutch Bachelor's degree after August 31, 1991, at a subsidized institution in order to follow initial education, or enrolls for a Master's program and has not been awarded a Dutch Master's or PhD degree after August 31, 1991, at a subsidized institution in order to follow initial education; and
 - b. belongs to one of the categories as meant in Article 2.2 of the Student Finance Act 2000 (WSF) (this at least includes students who are nationals of EU or EEA member states, Switzerland, or, under certain conditions, Turkey¹ or is a Surinamese national).
2. The restriction as meant in the first paragraph sub a, does not apply to a student who enrolls for the first time for a Bachelor's or Master's program falling under the [CROHO](#) label 'Education' or 'Health'. This exception may be applied only once, either in connection with enrollment for an educational program or in connection with enrollment for a health-care program.
3. The reduced statutory tuition fee is applicable to groups of students to be determined by orders in council.

Article 10 Weighted fee for a pre-Master's program and educational module

1. Students enrolled in a pre-Master's program or educational module will be required to pay a weighted fee.
2. The level of this weighted fee will depend on the course load, indicated as European Credits (EC or ECTS). The level of the weighted fee for a pre-Master's program or educational module in the 2023-2024 academic year is set out in Appendix I of these Regulations. A student enrolled in a pre-Master's program or educational module who is simultaneously taking a program for which he/she is paying the statutory tuition fee shall be exempted from paying a weighted fee for the pre-Master's program or educational module.
3. The level of this weighted fee in a subsequent academic year will be set based on the number of credits still to be earned as of September 1 of that academic year.
4. Students who, after completing the pre-Master's program, are eligible for admission to a Master's program, will pay tuition fees from their date of enrollment in the Master's program.

Article 11 Institutional tuition fees

1. Any person who fails to comply with the requirements defined in Article 9 and Article 10 of these Regulations must pay the institutional tuition fee.
2. The amount of the institutional tuition fee per program is defined in Appendix I of these Regulations.

Article 12 Fees for external students

1. Any student (both EEA nationals and non-EEA nationals) wishing to be enrolled as an external student must pay the examination fee. The examination fee is € 2.314².
2. Article 7 applies mutatis mutandis.

¹ Under certain conditions, students who are Turkish nationals fall under the statutory tuition fee, as defined in the Association Council Decision 1/80.

² With the exception of the joint degree programs Data Science, for which the examination fee for non-EEA external students is € 6.150 for the Bachelor and € 8.900 for the Master.

Article 13 Additional provisions and exceptions to the amount of the tuition fees

1. The following additions or exceptions apply to students who are enrolled with a statutory fee:
 - a. students who are enrolled with more than one program for which they pay the statutory tuition fee and who successfully complete one of the programs will still owe the statutory tuition fee for the remainder of that academic year.
 - b. students who are enrolled for the statutory tuition fee and who remain enrolled in their program even after completing the program, will owe an institutional tuition fee equaling the statutory tuition fee for the subsequent duration of that academic year as of the month following graduation. If they enroll for the same program in the next academic year, these students will owe the institutional tuition fee for that year.
 - c. students who are enrolled for the statutory tuition fee and who in a previous academic year successfully completed their first program will owe a statutory tuition fee for any subsequent program if they started such a subsequent program during their first program and have since followed that subsequent program without interruption.
2. Clients of the UAF (the University Assistance Fund for Refugee Students) will be charged the same institutional tuition fee as nationals of the countries that are defined in Article 9b.
3. If the Minister has granted permission to set a higher tuition fee than the statutory rate in the case of small-scale and intensive education as referred to in Article 6.7 of the HERA, a tuition fee of up to five times the statutory rate can be determined.

Article 14 Exception for joint education with a foreign institution

1. Students who enroll for joint education with one or more foreign institutions are charged a tuition fee determined by the Executive Board in consultation with the participating institutions.

Article 15 Waivers

1. If a student enrolls for a Bachelor's or Master's program and they are charged an institutional tuition fee that is higher than the statutory tuition fee, the applicable School may opt to offer the student a waiver on the basis of quality criteria. The student should submit a written request to the School. This request will be assessed on the basis of the criteria established by the School.
2. A student can never pay less than the statutory tuition fee because of a waiver provided by the School.

Article 16 Tuition fees in case of enrollment in multiple programs

1. If a student enrolls in multiple programs at Tilburg University or another Dutch institution of higher education for which the statutory tuition fee applies, then the student is charged the highest statutory tuition fee only once. This does not apply to the student whom because of the exception mentioned in Article 9 paragraph 2 is entitled to the statutory tuition fee; this student will not be exempted from paying the tuition fee for the other program(s).
2. EEA students who enroll in multiple programs to which the statutory and institutional tuition fees apply are charged the highest statutory tuition fee only once for all programs for which the statutory fee applies and are charged the institutional tuition fee *per program* for which the institutional fee applies.
3. Students who enroll in multiple programs to which only the institutional tuition fees apply are charged the institutional fee per program.

Article 17 Tuition fee reductions

If the student enrolls after September 1, the tuition fee is reduced by 1/12th for every month that has elapsed.

PART 3 PAYMENT AND REIMBURSEMENT

Article 18 Payment

1. The tuition fee or other form of payment applicable can be paid by or for the student either in the form of a lump sum or a direct debit authorization for eight installments via an official form approved by the university or digitally through Studielink.
2. If payment is made in the form of a lump sum, no administration costs will be charged.
3. Administration costs of € 24 are charged for payment in installments. If the student chooses to pay in installments the preferred method is via a direct debit authorization. A direct debit authorization for payment in installments can be submitted until March 1 to pay the remaining installments of that academic year. The preceding unpaid installments will be debited in the form of a lump sum. After March 1, the tuition fee or other form of payment applicable for the current academic year can only be paid in the form of a lump sum.
4. A payment will always be used to compensate the student's oldest debt first.
5. Any debt collection costs will be at the student's expense.
6. Paragraphs 4 and 5 and Article 7, paragraph 1 of these Regulations apply mutatis mutandis to reversal of entry of received installments owing to a debt collection reversal by the student or the bank.

Article 19 Reimbursement

1. A student who has paid the tuition fee in the form of a lump sum and whose enrollment is terminated has the right to reimbursement of 1/12th of the tuition fee for each remaining month of the academic year. If the student pays in installments, any unpaid installments for the previous periods will be subtracted before any applicable reimbursement is calculated. A reimbursement is based on the net tuition fee paid by the student and the amount claimable as of the date of termination of enrollment. If the enrollment is terminated effective as of July or August, the student will not be able to claim reimbursement of the tuition fee for the remaining months.
2. If a student passes away during the course of the academic year, his/her enrollment is terminated effective as of the following month. The stipulations in paragraph 1 regarding the reimbursement of the tuition fee apply mutatis mutandis.
3. Any student who pays the weighted fee for a pre-Master's program or educational module will not be eligible for a refund of paid fees.
4. An external student who pays the examination fee will not be eligible for a refund of this fee.

PART 4 FINAL PROVISIONS

Article 20 Hardship clause

In very special circumstances whereby the refusal of a request by virtue of these Regulations, or provisions contained in these Regulations, would lead to unfairness of an overriding nature, the Executive Board can deviate from these Regulations to the benefit of the student and at its own discretion. Students can submit a claim under the hardship clause to the Head of the Student Administration (headstudentadministration@tilburguniversity.edu) including written proof of the circumstances in question. Students can choose to send the written proof at the same time to the dean of students (studentendecaan@tilburguniversity.edu). Before the Executive Board makes a decision, there is an opportunity for the student who is making the request to be heard and for the Examination Board and/or the dean of students to be consulted.

Article 21

The decision on a claim submitted under the hardship clause is made within six weeks of the claim being handled.

Article 22 Fines

Any person who is not enrolled and uses the educational and/or examination facilities of Tilburg University will be fined to the amount of the applicable institutional tuition fee (Article 15.2 of the HERA). If this person then wishes to enroll with the university, they must meet the conditions defined in Article 3 of these Regulations.

Article 23 Objections and appeals

A notice of objection to decisions made based on these Regulations can be submitted to the Objections and Appeals Advisory Committee of Tilburg University within six weeks after receipt of the decision via www.tilburguniversity.edu/objection.

Within six weeks after publication of the decision on the notice of objection, an appeal can be made to the [Appeals Tribunal for Higher Education](#), PO Box 16137, 2500 BC The Hague.
