

How to get started with DataCamp

To join the DataCamp classroom of Tilburg University go to DataCamp.com. If you do not have an account continue below. If you already have an account with an e-mail other than your Tilburg e-mail, continue at page 10.

If you do not have an account:

Step1: Your page should look like the image below. Now click the google button.

Step 2: If you are not logged in, you are asked for your e-mail account. Fill in your @tilburguniversity.edu e-mail address like in the image below.

Inloggen met Google

Nederlands ▾ [Help](#) [Privacy](#) [Voorwaarden](#)

If you are logged in with any other account than your @tilburguniversity.edu account you can continue at page 11.

Step 3: Now you will arrive at the (normal) Single Sign-On page of Tilburg University. Fill in your university credentials here (so U-number and your password). See below as example.

TILBURG UNIVERSITY Understanding Society

After authentication an SSO session will start that remembers your credentials. Hence you have automatic access to all SSO supporting web applications. This session expires after 10 hours. To end it manually, log out of the SSO authentication service, or close all browser windows.

If others use this computer as well (e.g. in an internet café), closing this browser is **absolutely necessary** to protect your personal information.

Do you want to log in without starting the SSO session, uncheck the checkbox.

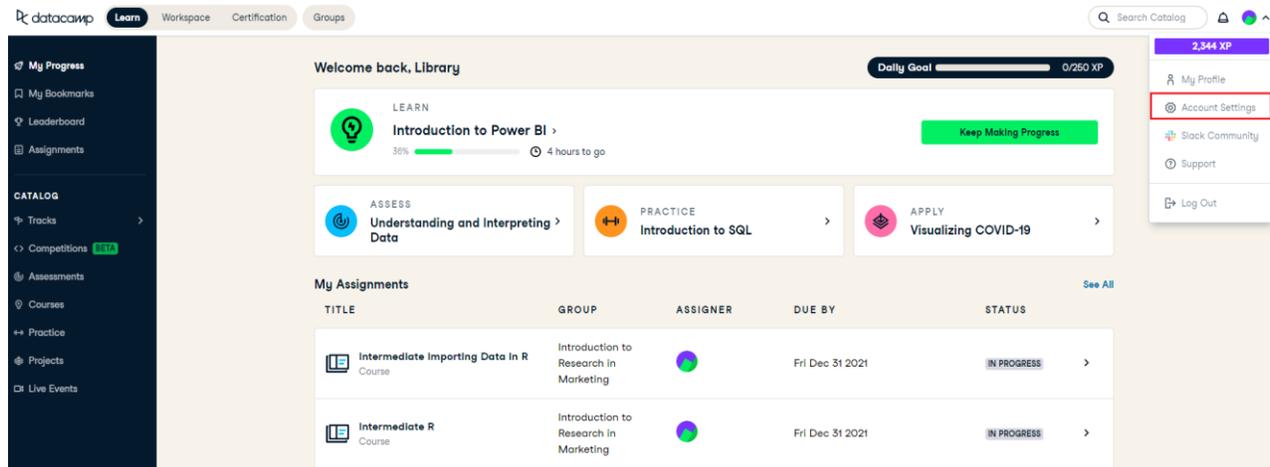

Visit the [FAQ page](#) for more information.

Step 4: Now you should arrive at a screen to finalize your account for DataCamp. Here you should fill in your First Name and Last Name, do fill in Tilburg University, and fill in that you are a Student. Fill in your phone number, because it is necessary in order to register. Note that we will give you the possibility to delete it in one of the next steps. Please take into account that we do not have a processing agreement with DataCamp. This means that you fill in your information yourself and that using DataCamp is at your own risk.

Step 5: You now have an account with DataCamp, however we still need to grant you specific access to all the content. To enable this, sign in using the following form: <https://www.tilburguniversity.edu/form/datacamp-registration>. Then, we will add you to the classroom as soon as possible.

After being added you can access all the content available of DataCamp.

Step 6: Now you can delete all the information from your account, which you think is unnecessary. In the upper right corner click on your account details and click on your account.

The screenshot shows the DataCamp user dashboard. The top navigation bar includes the DataCamp logo, tabs for 'Learn', 'Workspace', 'Certification', and 'Groups', a search bar, and a user profile icon. The left sidebar contains navigation options like 'My Progress', 'My Bookmarks', 'Leaderboard', 'Assignments', and 'CATALOG'. The main content area is titled 'Welcome back, Library' and features a 'Daily Goal' progress bar (0/260 XP). Below this, there are three cards for 'LEARN' (Introduction to Power BI), 'ASSESS' (Understanding and Interpreting Data), 'PRACTICE' (Introduction to SQL), and 'APPLY' (Visualizing COVID-19). The 'My Assignments' section contains a table with two rows of assignments, both marked as 'IN PROGRESS'. In the top right corner, a dropdown menu is open, showing options like 'My Profile', 'Account Settings' (highlighted with a red box), 'Slack Community', 'Support', and 'Log Out'.

TITLE	GROUP	ASSIGNER	DUE BY	STATUS
Intermediate Importing Data in R Course	Introduction to Research in Marketing	[Avatar]	Fri Dec 31 2021	IN PROGRESS
Intermediate R Course	Introduction to Research in Marketing	[Avatar]	Fri Dec 31 2021	IN PROGRESS

Step 7: Now you will see the following page:

Save Changes

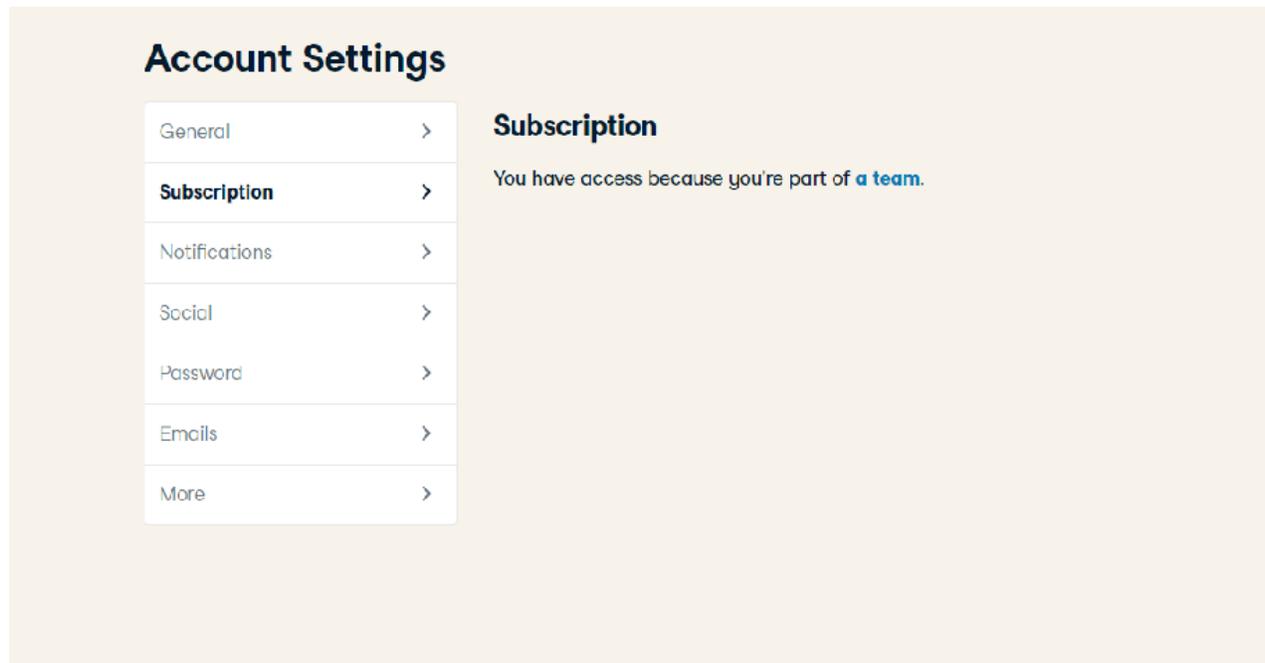

Here you can delete your phone number, change your name etc. You can also set your password by going to the password tab. This might come in handy if you want to login without the google log in.

Now that you have an account (with password), it is wise to also install the app of DataCamp, because you can do some courses on your smartphone. Download the DataCamp app for Android and IOS on the respective app stores. With your new account you can already immediately log in and get started.

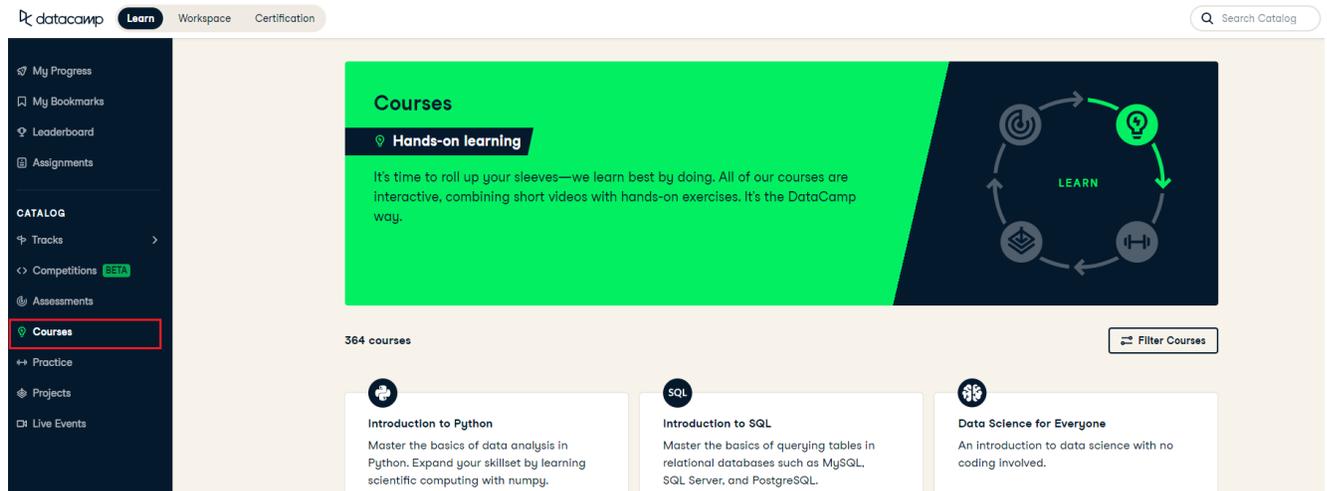

Do not change your e-mail address to a private e-mail address as you will lose DataCamp access after some time!

Step 8: Click on the button Subscription to see if you are enrolled to a classroom.

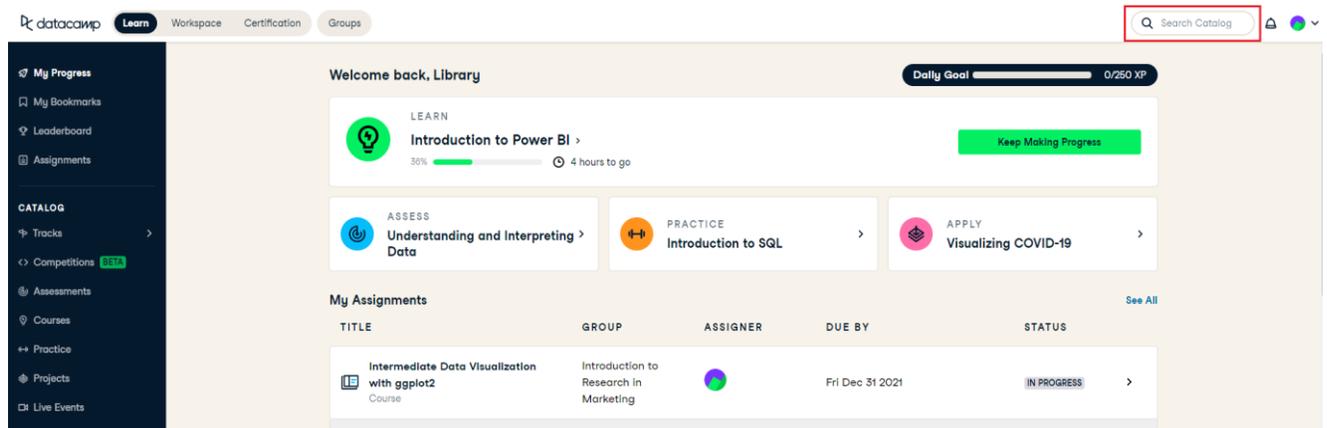

When you see the following text: "You have access because you're part of a team." your registration has been completed.

Step 9: Go back to <https://app.datacamp.com/learn> and find a course you would like to follow. You can find suggested courses on the main page when you click on the button Courses.

Furthermore, you can search for specific topics using the search box.

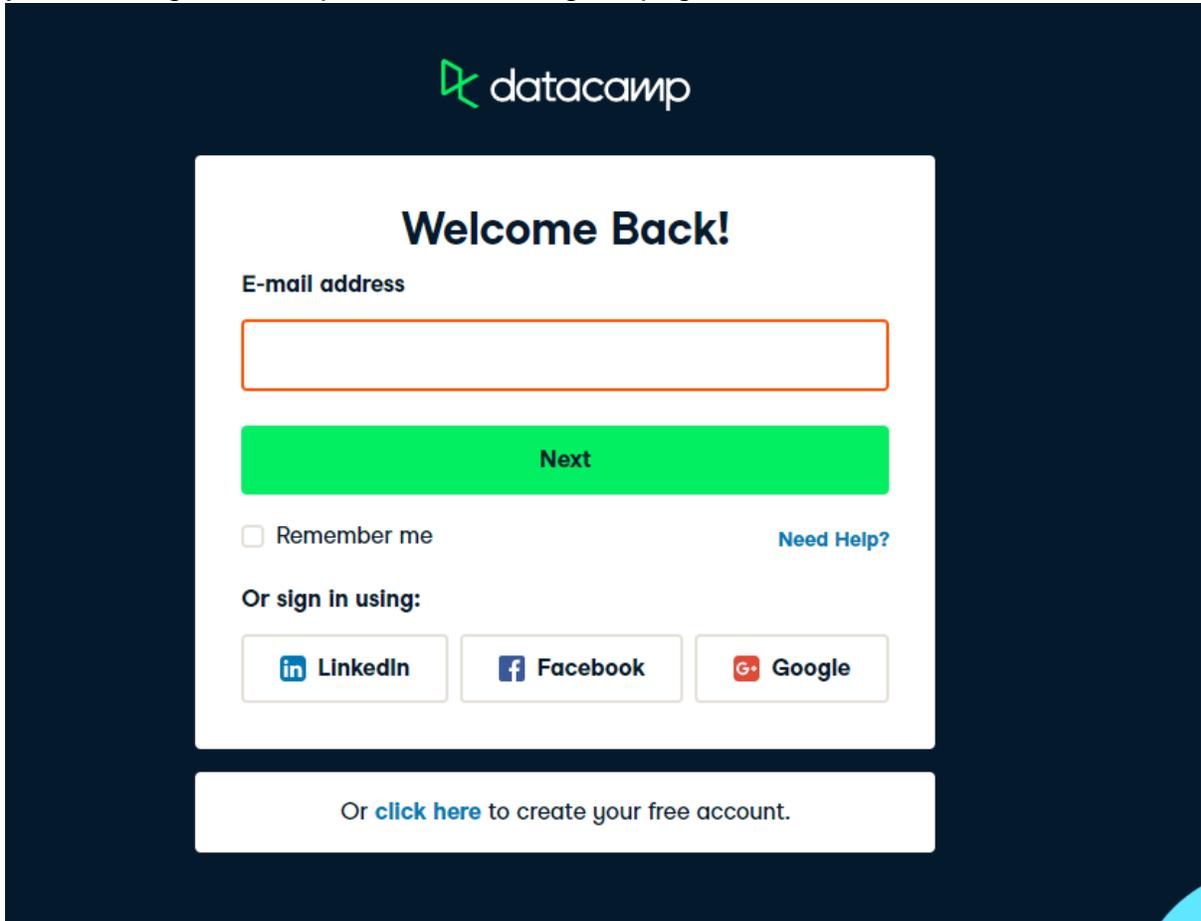

If you need help to find the right course you can sent an e-mail to library-scienceskills@tilburguniversity.edu

Now, you are ready to start programming!

You already have an account

If you already have an account, you can change the current e-mail address to your Tilburg university address, such that we can provide you access to all the content of Datacamp.

Step 1: First you have to sign in to your account. Go to the sign in page and sign in to your existing Datacamp account. The sign in page looks like this:

datacamp

Welcome Back!

E-mail address

Next

Remember me

[Need Help?](#)

Or sign in using:

LinkedIn

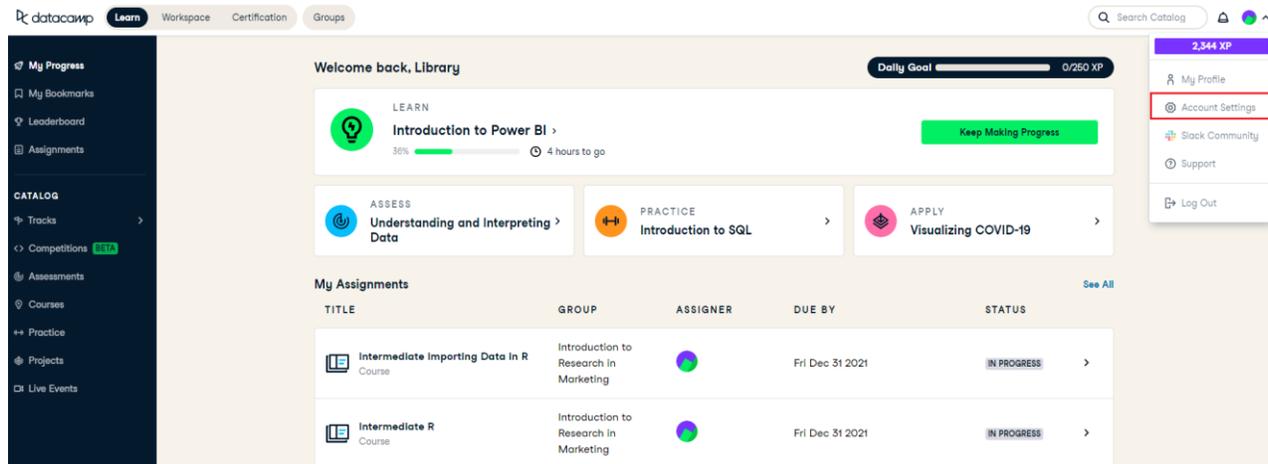

Facebook

Google

Or [click here](#) to create your free account.

If you are already signed in, go to step 2.

Step 2: Since we can only provide full access to Datacamp to students of Tilburg University, you need to change the e-mail of your profile to your Tilburg e-mail (@tilburguniversity.edu). In order to do so, go to the upper right corner and click on your profile:

Step 3: Now you arrived at the page with your general account settings. On this page change your e-mail address to your Tilburg e-mail (@tilburguniversity.edu). Thereafter, scroll down and click on “Save changes” to save your adjustment.

Step 4: You now have an account with DataCamp, however we still need to grant you specific access to all the content. To enable this, sign in on the form <https://www.tilburguniversity.edu/form/datacamp-registration>. Then, we will add you to the classroom as soon as possible.

Now follow steps 5-10. Step 5 is described on page 5.
