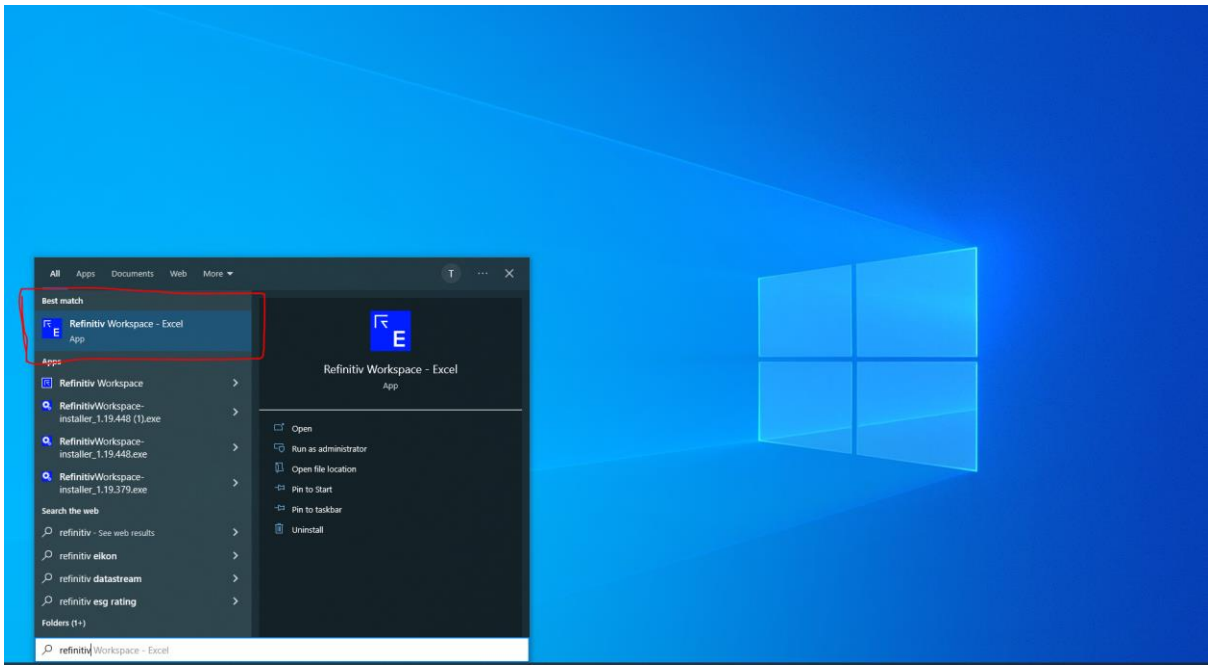
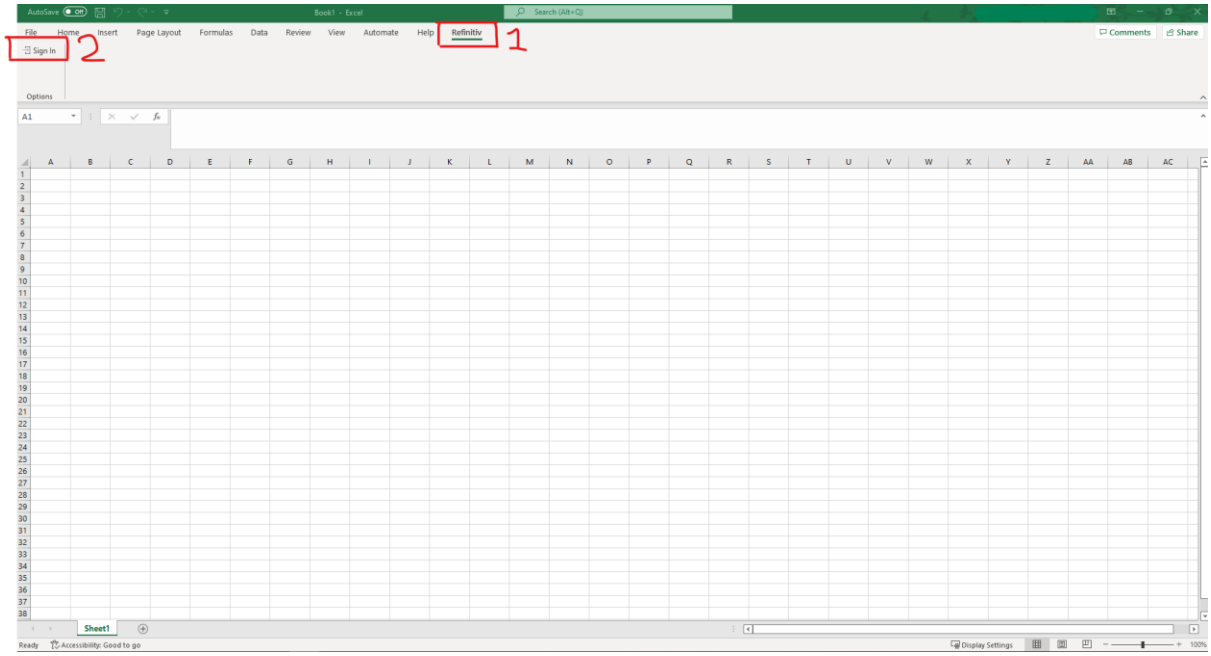
How start Datastream after you have **installed (thus not only logging in on the web version!)** the Refinitiv Workspace software:

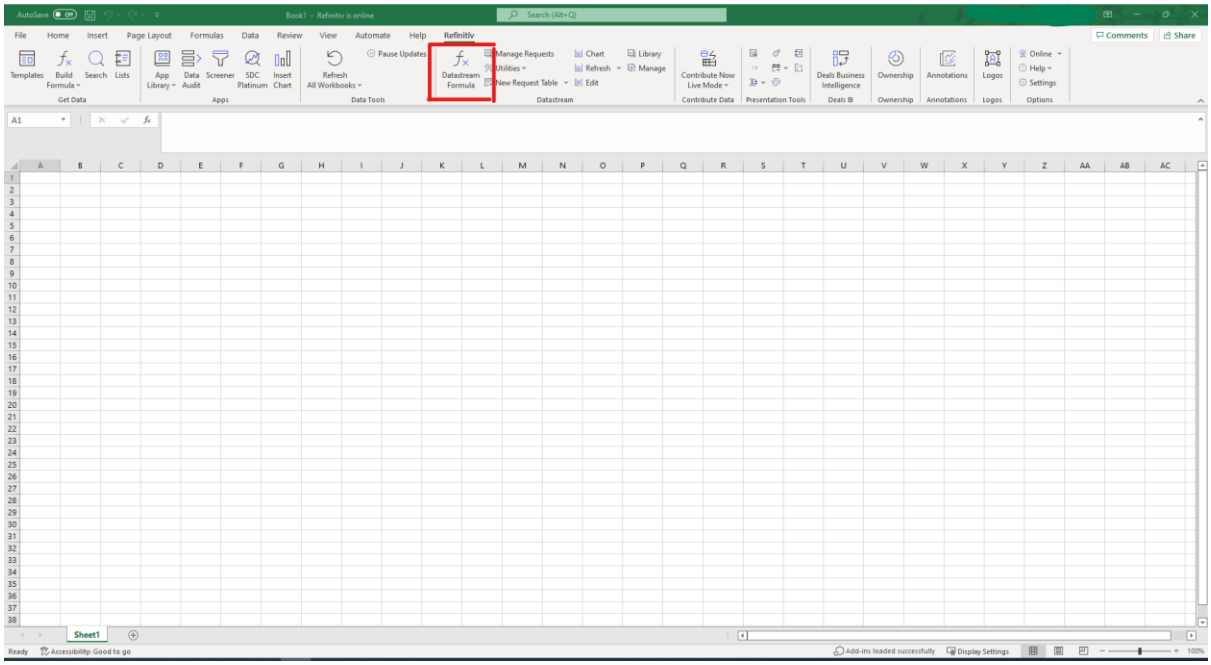
Step 1: Search for Refinitiv on your PC and open “Refinitiv Workspace – **Excel”**



Step 2: Open a blank workbook and go to the Refinitiv tab. Next, click on “Sign In” and login using your Workspace account login details. If you do not have a Workspace account please contact lis-financialdatasupport@lists.uvt.nl .



Step 3: Start Datastream by clicking on this button:



Please visit the following website for extra instruction videos on how to work with Datastream:
