

Tilburg University and PThU invite you to our
bi-annual conference of the “Jewish and Christian Perspectives”

May 9-12, 2022

“Memory: In search of lost time”

Memory conveys the past and the future in our present time. The French writer Marcel Proust describes how the madeleine, a well-known sweet cake, brings back long forgotten memories from the past. In a way ritual, texts, religion and ethics aim at a similar retrieval of time gone by. “In search for lost time”, this title of Proust’s magnum opus, is the program for this conference, in which Jewish and Christian Perspectives form the backbone.
