- There are two **new** elective courses in Block 1 of Y3 of 3 ECTS each. These courses are interesting and open for all Bachelor Psychology/Psychology students. Students who are doing the major Clinical psychology or the major Medical Psychology and choose Qualitative Research or Systematic review as thesis form are **required** to take the corresponding course during block 1.
- If students take **both** courses (424027 and 424028) they can count as one elective (6 ECTS) on the transcript
Other elective courses can be taken during block 2 **or** during your exchange in block 3/4.
- Write your Thesis in Block 1 and 2 instead of Block 3 and 4! Check the EER or the description in the course catalogue for the entry requirements for the bachelor's Thesis. Contact the Education Coordinators after the registration of your results of the block 4 courses of year 2 if you do not fulfill all these requirements or if you have questions about this overview.
