

Practical Information for Hybrid TIBER Conference:

1. Zoom:

Link: <https://us02web.zoom.us/j/82335559924>

Password: misbehave

2. Wonder.me:

a) Room 1: general hangout place

Room name: TIBER

Link: <https://www.wonder.me/r?id=6fb063a0-014a-400b-809d-2fdd5ea31ebc>

Password: tiber

Information: The room will be open throughout the conference day. To help you easily find common topics of conversation, we created 12 areas corresponding to the parallel sessions, and 1 area corresponding to the keynote lectures. In case of any problems we will help you in the area "IT support".

b) Room 2: room for the poster session

Room name: TIBER-Poster

Link: <https://www.wonder.me/r?id=6960b3d1-332b-43fb-8064-e8e3c8a2d10d>

Password: tiber

Information: The poster session will be hosted in this room. Every poster presenter is assigned a slot corresponding to the number of their paper in the teaser overview (see website). You are welcome to walk around and chat with the presenters. If you have any technical questions, you can go to the area with the name "IT support". Our colleagues will help you.

For information about how to use Wonder.me as a guest, see a [guest guide here!](#)

Some notes:

- i) We recommend that you use your name and affiliation when you log in and your own picture as an avatar. It will be easier for others to recognize and remember you.
- ii) Wonder.me doesn't work on smartphones.
- iii) You cannot open two Wonder.me rooms at the same time.
- iv) Wonder.me automatically forms a conversation circle when you come close to someone. You can also invite other participants to join your discussion by clicking the avatar of that person and invite him/her to chat. Note that once the person accepts it, the ongoing conversation of that person will be directly interrupted. If you prefer to have some private conversations, you can choose to lock the circle.
- v) For participants in China: you need to use VPN connection to login.

3. YouTube channel for poster presentations:

You can find the presentation videos of all posters in our [YouTube channel!](#)
