

## Weighted fees for pre-Master's programs 2024-2025

Students, who are not yet admissible for a Master's program, need to remove their deficiencies by passing exams for courses the examination board has determined in a pre-Master's program.

The weighted fee you pay, applies only to the credits (European Credit = EC) pertaining to courses that form part of your pre-Master's program and for which you are enrolled, for the duration of one academic year. The number of EC/ECTS is listed in the admission letter you received from the School.

The amount of weighted fee is the same for EEA students and non-EEA students.

You are only allowed to follow the courses the examination board has determined. If you wish to follow other courses alongside your pre-Master's program, you need to register as a [contract student](#). You pay for every 6 EC the statutory fee in proportion: €253 for each 6 EC (plus €58 administration costs) in academic year 2024-2025. This fee is a special rate for pre-Master's students who follow additional courses as contract student. Contract students, who are not enrolled in a pre-Master's program at the same time, pay a higher fee.

### PLEASE NOTE:

- In case you should end your enrollment before August 31, you do **not** get a (partial) refund of the weighted fee. You always need to pay the full weighted fee, regardless of whether you complete the program or fail your exams.
- If a student has completed the pre-Master's courses and enrolls directly afterwards for a Master's program in the same academic year, the enrollment for the pre-Master's program will be terminated automatically.
- It is *impossible* to go on exchange as a pre-Master's student.

### Pre-Master's weighted fees 2024-2025

≤ 6 EC	€ 253
>6 en ≤12 EC	€ 506
>12 en ≤18 EC	€ 759
