300460-M-6	Business Taxation and Decision-Making Processes for IBTE	<p>This course is deleted in the new IBT program. The course on Transfer Pricing, which is optional in the old curriculum, will become a mandatory course (instead of the course Business Taxation and Decision-Making Processes IBTE). If the IBTE students have already attended the lectures of the course Business Taxation and Decision-Making Processes IBTE, but they have not finalized the paper (which is the final examination for this course), they will have the possibility to finalize the paper with supervision.</p> <p>The students who have not attended the lectures of the course Business Taxation and Decision-Making Processes IBTE will substitute this course with the course Transfer Pricing. If these students have already passed the Transfer Pricing course (because they have chosen it in a previous academic year as an optional course), the Transfer Pricing course, which in the new curriculum is a mandatory course, will substitute the mandatory course Business Taxation and Decision-Making Processes IBTE and the students will choose one of the other optional courses in the 2021/2022 IBTE program in order to complete the curriculum.</p> <p>The students of the IBTE premaster who will opt for the old curriculum will substitute the course Business Taxation and Decision-Making Processes IBTE with the course on Transfer Pricing.</p>	Transfer Pricing (please, read carefully the column with the Transition rule) or finalize the paper with supervision for the course Business Taxation and Decision-Making Processes for IBTE.	695042-M-6 or 300460-M-6	1	For students of the Corvinus University of Budapest who started their Double Degree program in September 2021, the following transition rule also applies. Note the following: Students have time to complete the transition plan until 31 August 2023 (1 academic year). As from September 2023, they must switch to the new IBT master's program.

323102-M-6	Integrated Reporting and Behavior	This course has a new course name. This course will become an optional course in the new IBT program. IBTE master and premaster students (with cohort(=starting year) 2021 or older) will still have the possibility to attend this course as a mandatory course.	Corporate Sustainability	XXXXXX-M-6	2	For students of the Corvinus University of Budapest who started their Double Degree program in September 2021, the following transition rule also applies. Note the following: Students have time to complete the transition plan until 31 August 2023 (1 academic year). As from September 2023, they must switch to the new IBT master's program.
695042-M-6	Transfer Pricing	This course will become mandatory in the new IBT program. IBTE master students from a previous academic year will still have the possibility to attend it as an optional course. IBTE master and premaster students (with cohort(=starting year) 2021 or older) who have substituted the course Business Taxation and Decision-Making Processes IBTE with the course on Transfer Pricing will choose one of the other optional courses in the 2021/2022 IBTE program in order to complete the curriculum.	Transfer Pricing (please, read carefully the column with the Transition rule) or one of the other optional courses in the 2021/2022 IBTE program.	695042-M-6	1	For students of the Corvinus University of Budapest who started their Double Degree program in September 2021, the following transition rule also applies. Note the following: Students have time to complete the transition plan until 31 August 2023 (1 academic year). As from September 2023, they must switch to the new IBT master's program.

695527-M-6	Tax and Technology (VU)	<p>This course will be deleted in the new IBT program. However, it will still be provided in Amsterdam. Therefore, in principle, students will still have the possibility to attend it in Amsterdam. Alternatively, they can opt for the equivalent course Tax and Technology TiU.</p>	<p>Tax and Technology (VU) (please, read carefully the column with the Transition rule) or Tax and Technology (TiU).</p>	695527-M-6 or 695526-M-6	1 or 2	<p>For students of the Corvinus University of Budapest who started their Double Degree program in September 2021, the following transition rule also applies. Note the following: Students have time to complete the transition plan until 31 August 2023 (1 academic year). As from September 2023, they must switch to the new IBT master's program.</p>
